WHEN LIFE'S AT STAKE

The most timid man will take any chance of escape. The slender rope dropped down the precipice, the slippery log over the abyss, anything that offers a chance of life, is eagerly snatched at. The end the man seeks is safety. He cares nothing for the means to that end.

There are thousands of men and women whose lives are at stake, who are hindered from accepting the one means of safety by foolish prejudice.

Doctor Pierce's Golden Medical Discovery has been the means of restoring health to many men and women whose low cough, bleeding lungs, emaciation and weakness seemed to warrant the statement of local physicians--"There is no cure possible."

Why should prejudice against a put-up medicine hinder you from trying what has cured thousands of suffering men and women?

"Only for Dr. Pierce's Golden Medical Discovery I think I would be my grave to-day," writes Mr. Moses Miles, of Hilliard, Ohio. "I had asthma so bad I could not sleep at night and was compelled to give up work. It affected my lungs so that I coughed all the time, both day and night. My friends all thought I had consumption. My wife had taken Dr. Pierce's Favorite Prescription and it had helped her so much she insisted on my trying his 'Golden Medical Discovery' which I did. I have taken four bottles and am now a well man, weighing 185 pounds, thanks to Dr. Pierce's Golden Medical Discovery."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose.

EFFECTS OF COLD WAVE.

The mercury in Pittsburg, Pa., and vicinity yesterday registered from 3 to 14 degrees below zero in exposed places. Shortage of natural gas has caused much suffering and inconvenience. The frigid atmosphere caused the gas to congeal to such an extent that for a time scores of residences were practically without means of heating or lighting, where no other resources were at hand. Many families were forced by the circumstances to retire to their beds and depend entirely upon the coverlets for keeping their bodies warm. Joseph Totten, an aged ferryman at Port Royal, was found frozen to death in his shanty yesterday.

Thousands of New York's poor were in a deplorable condition yesterday because of the cold. Many families wrapped in blankets, borrowed from neighbors, trying to keep warm. The coal supply was low and dealers were doing all they could to serve customers. Long lines of shivering poor were buying coal by the pail full at the delivery stations at 8 and 10 cents a pail. If the zero weather continues the death list from cold will be large. Already there have been several deaths from exposure. In all hospitals men and women with frost bitten noses and ears applied for relief yesterday. The thermometer stood one degree above zero at 9 o'clock yesterday morning, and the local forecaster said the weather would continue cold.

INFERNAL MACHINE SENT TO A BRIDE.—An infernal machine, containing powder, dynamite and loose buckshot, was sent by some unknown miscreant yesterday to Mrs. M. E. Parlette, of Norfolk, a bride of a few months. It was opened by little Harry Hicks, and his eyesight was destroyed by the explosion. The box was supposed to have been sent by mail, but the wrapper bears no postmark. A suspicion exists that the box never went through the postoffice, but nevertheless, Postoffice Inspector Bulla and his assistants are at work on the case. The package was left by the postman at 403 west Highland avenue. It was addressed to Mrs. Parlette, and her little brother, Harry Hicks, aged about 12 years, attempted to open it for his sister, when suddenly there was an explosion, and the little fellow fell to the floor, with his face burned and one of his eyes injured. The package was addressed in a bold handwriting, apparently that of a man. It was about 8 inches wide, 8 inches long and 3 inches deep, and contained about three quarts of powder and shot and a quantity of matches. To the top of the box was attached a piece of sandpaper which was so arranged as to scratch the matches when it was lifted.

BAIL DENIED TILLMAN.—Chief Justice Pope yesterday afternoon refused to grant bail to James H. Tillman, who is held for killing N. G. Gonzales in Columbia, S. C., but gave him the right to apply to any other judge. This can be done on the ground of after-discovered evidence, but it is not believed any circuit judge would grant bail after it has been refused by the Chief Justice. In his decision the Chief Justice said it was undoubtedly true that Tillman had undergone an ordeal of the bitterest attacks on the part of Gonzales in his newspaper, the bitterest in the annals of the State. But the question was whether Tillman was actuated by malice when he killed Gonzales, and as to that the Judge said there could be no doubt. He said that he had recently taken the oath of office, and with that oath fresh on his lips, however much he regretted to do so, he would be compelled to refuse bail. He, however, issued an order allowing application to be made to any other judge if Tillman so desired. The decision was a surprise in some respects, but it is hailed with great general approbation as being the dawn of a new era in South Carolina in regard to the treatment of those committing murder.

SERUM FOR SCARLET FEVER.—Dr. Louis Fischer, of New York, has now under observation a case which is undergoing the first experiment in this country with a new anti-streptococcus serum which is believed to destroy the germs of scarlet fever. Several days ago the doctor was called to see a frail little girl, who had a severe attack of scarlet fever, with throat complications. Her temperature was 104°. Dr. Fischer decided to try the new serum. Twelve hours after the one injection the temperature decreased 2°. In the morning of the following day it descended to normal, but rose again in the evening to 100°. On the fourth day it continued normal. The last report is: "Temperature, 99°; pulse, 94; respiration, 24, and general condition good." The new serum was discovered by Dr. Hans Aronson, a bacteriologist of Berlin.

Congress unless both the Panama canal and the Cuban reciprocity treaties are ratified at the present session. The President made this declaration of his intention to several Senators, yesterday and he made it as emphatically and unequivocally as he was capable of making it. It is thought likely by officials of the administration and by many Senators that both treaties will be ratified before March 4, but the necessity for their early ratification is regarded by the President as so urgent that in the event of the failure of either one or both at the present session he will issue immediately his call for an extra session. It is said that there are grave reasons of state why both treaties should be ratified as soon as possible. These have induced the President to make the announcement to Senators of his determination.
